Features & Benefits

- Factory constructed, bolt-together 9'10" (3 metre) sections.
- Maintenance free, no grates to clean or remove.
- Open slot concept which blends in neatly with surface materials.
- U-drain can be used as a centre screed, utilizing a two slope concrete pour.
- E-Z Mount Rebar Brackets are designed to reduce labour costs versus poured in place drain.
- Built using 16 gauge galvanized steel, also available in stainless steel.
- Custom drainage solutions are available upon request.
- Each section is pre-sloped 1/2" per 3 metre section.
- Galvanized cleaning paddle is also available, upon request. Also available in stainless steel.
